### How does it work?

We start off with a 5 micron pre-filter which removes particulate and sediment from the water before it arrives in the main tank. The water then travels through our multi-stage filter which is composed of the highest quality coconut shell carbon available on the market today. Our filtration process removes or reduces harmful chemicals and by-products such as chlorine, chloramine, pesticides, VOC's, pharmaceutical residual, and much more.

The carbon filter is assembled with the highest grade coconut shell carbon available in the world. Our industry leading 5 micron sediment pre-filter prevents particulate and sediment from entering the tank and interfering with the filtration process.

The ultimate in green technology, the softener uses all natural NSF resin to clean and prevent scale build-up in plumbing and fixtures prolonging the life of your appliances and allowing them to run at optimum performance.

Because the Chanson Water Dove is a salt-free system it provides an excellent alternative to the units that use salt or saline solution in order to activate the ion exchange needed in order to have "soft" water. Furthermore, if you add our Hydro-magnetic module to the NSF resin you will have the most environmentally friendly softest water available on the market.

**\* The Water Dove is made in the USA.**

### How does the optional Hydro-magnet work?

When the water passes through the magnetic field it changes the electrical charge of the ions in the hard water so that the mineral cannot form lime scale which creates build-up on your plumbing and fixtures. This reduction in build-up will improve performance and extend the life of your appliances.

### CHEMICALS REMOVED:

- \* Chlorine
- \* Pesticides
- \* Chloramine
- \* Herbicides
- \* VOC's (Volatile Organic Compounds)
- \* Industrial Solvents
- \* Pharmaceutical Residue

### Why the Water Dove?

- \* Our Water Dove system requires NO electricity, NO waste water for back washing, NO salt or saline solution for purification. Not only are you doing your share for the environment you are also helping to extend the life of your plumbing and fixtures.
- \* The Water Dove has a five (5) stage micro-sediment pre-filter which provides chlorine free water throughout the entire house.
- \* Salt-free resin based water conditioner gives the water a silky smooth feel without the "slimy" feeling caused by salt softeners.

- \* Optional hydro-magnetic conditioner which improves upon the resins already stellar performance.
- \* NO loss in water pressure and NO limits in performance because of water flow.
- \* Minimal maintenance: Expect five (5) full years of filtration before any work is needed. (Like replacing the tank media)
- \* Best value available for the whole house filtration and softener combo systems
- \* Employs both resin and magnetic technologies for the ultimate in performance

High quality, amazing warranty, a 90 day money back guarantee, a company name synonymous with quality and craftsmanship; these are just a few of the reasons why the Chanson whole house water filters are a perfect match for your household.

The Chanson Water Dove whole house filter is manufactured with flawless structural tanks and top of the line bypass valves. Our filters use the highest grade coconut shell carbon in the world and our filters have amazingly long life with minimal maintenance. Five years or 700,000-1,000,000 gallons ensure that you will be enjoying amazingly refreshing, chemical free water for years to come.

Chanson Water offers a 10 year warranty on all of our Water Dove filters and softeners so you can buy with confidence knowing Chanson stands behind every machine we sell.

In addition to having a superior filtration system we are the only company to offer the Hydro-magnetic conditioner module which will provide de-scaling and mild softening to your water; which in turn prolongs the life of your pipes, fixtures and appliances. The Water Dove system is good for you and great for your house!
