# BUILD SUPER IMMUNITY

# KEYS TO BUILDING A POWERFUL IMMUNE SYSTEM

## Immune System?

A weak immune system leaves you exposed to infection and susceptible to disease.

Your immune system's primary job is surveillance—to constantly search your body and bloodstream to find anything that could hurt you; harmful bacteria, virus, fungus, infection, pathogens, disease and even cancer cells.

When your immune system detects a threat it neutralizes, poisons, and kills it. It can even remember the disease so the next time it's ready to defend even faster. This is what the cells and chemicals of your immune system do.

## Why is our immune system broken?

### STRESS

Go out, anywhere, and look. Everyone is on their cell phone, either talking or staring at an e-mail, texting, tweeting, or getting some information. We are addicted to staying

connected, communicating, getting information, and we don't have a break from it anymore. In one single day, we now receive the amount of facts, figures, information and communication a person received 100 years ago in their entire lifetime.

### NUTRITION

Or, actually the lack of nutrition. Nutrition is what your body uses to build new immune cells, like your T-cells and B-cells. Nutrition is what you use to build immune chemicals, like immunoglobulin, interferon and interleukin. Nutrition is what your body uses to build your lymphatic fluid (your "white" blood) that your immune system travels in, and which builds, feeds and repairs all of your immune organs from your thymus and spleen to your bone marrow.

### KEEP IT CLEAN

If your body is not efficient at removing waste, or if "junk" is coming into your body faster than your body can remove it, this waste gets backed up

and these retained poisons put added stress on your immune system.

Most Americans have months (even years) of old waste stuck in the nooks and crannies of their bowel, liver, gallbladder, kidneys, and bladder. Your immune system is working 24/7, 365 fighting off this infected waste. It never gets a rest! And, you must get this waste out.

### NO PUMP

Of course, the biggest part of your immune system is your lymphatic system. This is the fluid in your body that most of the white blood cells and chemicals travel in. Your lymphatic system doesn't have a "pump" like the way the heart pumps your blood around your body, so there is no pump to move T-cells, B-cells, and other immune chemicals around. The only way that happens is by moving your body and deep breathing. This is why the more you move, the better your lymphatic circulation, and the better your immune circulation.

**Dr. Schulze's  
3 HERBAL WAYS  
TO BUILD A POWERFUL  
IMMUNE SYSTEM**

- 1 **INCREASE** your nutrition
- 2 **CLEAN OUT** old waste
- 3 **SUPERCARGE** your immune system with powerful herbs

# #1 INCREASE YOUR NUTRITION TO BUILD SUPER IMMUNITY

Eat crap, feel like crap.

Last year, we saw an epidemic rise in influenza cases. This year is expected to be no different. It is no coincidence because Americans are also experiencing an epidemic rise in poor eating habits.

People are living on a steady diet of nutrient-poor coffee, sugar, chocolate, junk, prescription drugs and alcohol.

Without a rich supply of vitamins, minerals, amino acids and enzymes to keep your body working at its optimum, your body breaks down. It can't produce the life-supporting hormones, healthy blood cells and immune-boosting chemicals you need to fight disease and destroy bacteria, viruses and foreign pathogens.

Nutrition builds every cell, organ and metabolic chemical—it's what keeps you healthy and impervious to any foreign body looking for a weak spot to exploit.

A strong immune system starts with putting better food into your body—fresh, nutrient-rich, organic foods, juices and supplements.

These are powerful sources for Vitamins A, B and C, as well as amino acids, iron and antioxidants to help support and manufacture immune cells, rebuild immune organs and create vital chemicals to combat influenza and the common cold.

Another important factor is feeding your cells fast. Organic juices make a great nutrition delivery system. Juices are the concentrated liquid extract of food, and that means they can be digested with very little effort by your body.

Prepare your immune system now with powerful nutrition. Remember, the best offense is a good defense, and nothing prepares your natural defenses against bacteria, viruses, and other pathogens, like great nutrition.

# #1 INCREASE YOUR NUTRITION WITH REAL VITAMIN-C

## What is a Vitamin and what is Vitamin C?

Vitamins are essential nutrients you must consume every day from the food you eat and the liquid you drink. And if you don't, you will get ill, your body will break down, get diseased and you will eventually die.

Vitamin C Complex is an essential vitamin complex that humans cannot manufacture in our bodies. It is a powerful antioxidant that scavenges disease-causing free radicals, and is famous for being a powerful immune booster for treating colds and influenza.

## The Immune Vitamin

Vitamin C is found in extremely high concentrations inside immune cells. It is quickly consumed, when your immune system is fighting off infections, cancer and even radiation, or toxic poisons. This is why consuming abundant Vitamin C is even more important to prevent and treat colds and influenza, and fight infections. It is powerful immune fuel that gives your immune system the fuel it needs to protect you and heal you.

## Reverses Disease & Aging

A free radical is simply an unstable atom, molecule or ion that is circulating inside your body. They are kind of like broken or open atoms with "dangling" parts. That's a simple description, don't shoot me.

The big problem is they cause severe cell damage, and they don't discriminate. Like a poisonous, broken piece of glass circulating in your body, they are able to damage and kill every cell in your body: brain, heart, liver, bones, muscles, skin.

Free radicals in the body are caused by unhealthy foods and an unhealthy lifestyle, which causes a condition called Oxidative Stress. Today, free radicals have been found to advance and contribute to, if not create, almost all diseases.

Worse, they are directly linked to the aging process! So, the more free radicals in your body, the faster you age. Free radicals start chain reactions in your body, and when these chain reactions happen in your cells, it causes damage or death to the cell. This causes disease, aging and death.

Now, here is the best part! An antioxidant is any agent that inhibits, neutralizes and stops free radicals from killing your cells, making you sick and killing you. Antioxidants terminate these harmful chain reactions caused by free radicals and terminate the free radicals themselves. Doing this protects you, prevents disease, promotes health, heals disease and slows the aging process.

One of the most powerful nutrient antioxidants known on the planet is Vitamin C. It stops free radicals from hurting you, and neutralizes them.

## Vitamin C is necessary to make Collagen

Collagen is a protein found in your skin. It is the main component of what is called fibrous or connective tissue in your skin, muscles, tendons, ligaments and cartilage. It is even in your arteries, veins and bones. One of the most powerful nutrients needed for your body to produce collagen is Vitamin C Complex or Bioflavonoids.

## SUPERCHARGED

# #2 CLEAN OUT THE OLD WASTE AND ACHIEVE STRONG IMMUNITY AND LASTING HEALTH

It's a fact, periodic cleansing and detoxification is one of the greatest ways to create powerful health and supercharge your immune system to ensure you don't get laid up with a cold or flu.

A clean bowel actively eliminates the sludge of old fecal matter, toxins, poisons and bacteria that run down and cripple your immune system.

A clean liver purifies your blood of unhealthy accumulated deposits that interfere with nourishing your immune system.

And, clean kidneys keep every organ and system in your body healthy and working at its optimum best, including your immune system.

So to keep yourself healthy this winter, start with the strongest and most effective cleansing programs you'll find anywhere!
